

Technology in Construction Symposium “Interoperability and the AEC Community”

FACTS:

- The construction industry is in the midst of an unprecedented technological revolution and demand for increased business productivity.
- Creating an interoperable or connected business environment between your project team and workflow tools is the critical path to growing productivity and profit.

Join Associated Builders and Contractors and McGraw-Hill Construction to learn more about how Interoperability is driving productivity in construction. There is no charge to attend; however, seating is limited and is on a first-come, first-served basis, so register today!

Moderators - Hill International

Frank Giunta, SVP & Managing Director
John Paolin, Vice President of Marketing
Shawn Pressley, Project Engineer

Panelists

Gary Lowe, Senior Director - McGraw-Hill Construction
John Bristol, Senior Executive - The Foram Group
Miles Wilson, Director of IT - Pirtle Construction Company
Bill Kleis, Senior VP - InSource, Inc.
Ron Perkins, VP of Business Development - Adenium Systems, Inc.
Jonathan Bowman, Business Development Manager
AEC/EPC Vertical Market Adobe Systems, Inc.

Questions to be answered in the forum include:

- Why does Interoperability and BIM Technology drive productivity?
- What tools should AEC companies be leveraging to help grow business, reduce costs, eliminate redundancy, and minimize risk?
- How can you increase Interoperability and effective collaboration among project teams?
- How to improve prequalification, bid coordination, version control and electronic closeout?

6:30-7:30	Registration
7:30-8:00	Breakfast and Symposium Begins
8:00-9:30	Introductions, Overview and Interoperability Presentations
9:30-11:00	Panel Discussions, Q&A, Closing
11:00-12:00	Bonus Session - Learn how other AEC Companies are implementing new technologies to drive productivity.
