RE: Letter of Recommendation for Pirtle Construction

To Whom It May Concern:

Dyanki Inc (dba Morse Zehnter Associates) is the Engineer of record for over 80 school HVAC renovation projects in South Florida. A large portion of our responsibility is Construction Administration for the duration of the projects. Pirtle Construction was the General Contractor on a project that included the complete replacement of the HVAC system and classroom lighting system in an Elementary School. The project was completed on time, on budget and in a very professional manner without interruption to the students and staff.

I highly recommend Pirtle Construction for work involving educational facilities.

Yours truly,
Morse Zehnter Associates

Robert Shorr
Director of Field Operations
